

ALL-TERRAIN COMMUNICATIONS INC.

Out of the box communications for an out of the box world

The Sniper. Simple, Accurate, Reliable.

The Sniper series tank level monitoring system by All-Terrain Communications provides battery operated non-contact level measurement with built-in cellular communications. The unit mounts to an existing 1 - 2" threaded hole in the top of the tank and communicates the level data to the ATC Customer Portal. Models vary with measurement ranges from 4 inches to 13 feet. All units are Class 1 Division 2, Group D approved.

ATC Customer Portal

All your tank level info in one spot
 Unlimited secure access 24/7/365
 User-friendly maps, spreadsheets, and graphs
 Customized alarms and reports

Optimize the efficiency of your operation.
